Hazardous Weather

Hazardous Weather

Another hot day is in store for the Borderland today as high temperatures will reach 105 degrees in a lot of locations. A Heat Advisory remains in effect for the highlighted areas through 8am Saturday. Overnight lows will also be warmer than normal providing little relief from the heat. Be sure to drink lots of water and limit exposure to the hot temperatures to avoid heat-related illnesses.

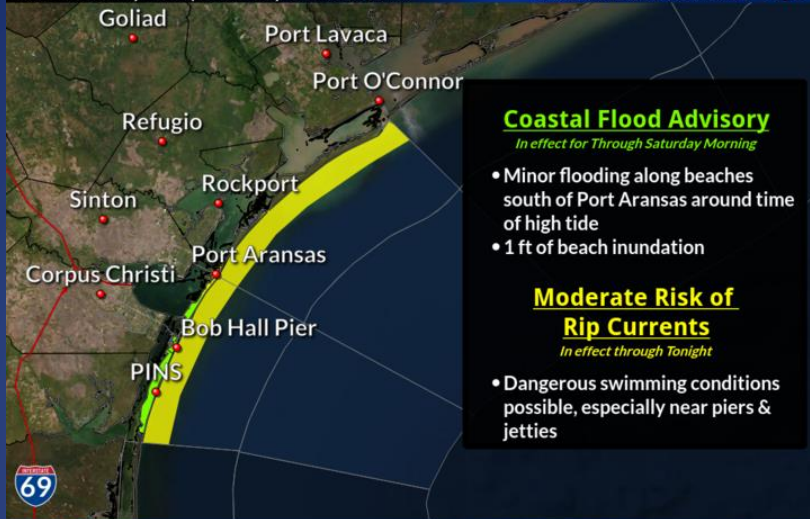

A Heat Advisory is in effect this afternoon through early this evening for the Guadalupe, Delaware and Davis Mountains.

Hazardous Weather

Hazardous Beach Conditions

Beach Roads May Flood | Water May Reach the Dunes

Weather Forecast Office
Corpus Christi, TX
Issued Jun 05, 2020 5:36 AM CDT

Coastal Flood Advisory

In effect for Through Saturday Morning

- Minor flooding along beaches south of Port Aransas around time of high tide
- 1 ft of beach inundation

Moderate Risk of Rip Currents

In effect through Tonight

- Dangerous swimming conditions possible, especially near piers & jetties

f t y NWSCorpus

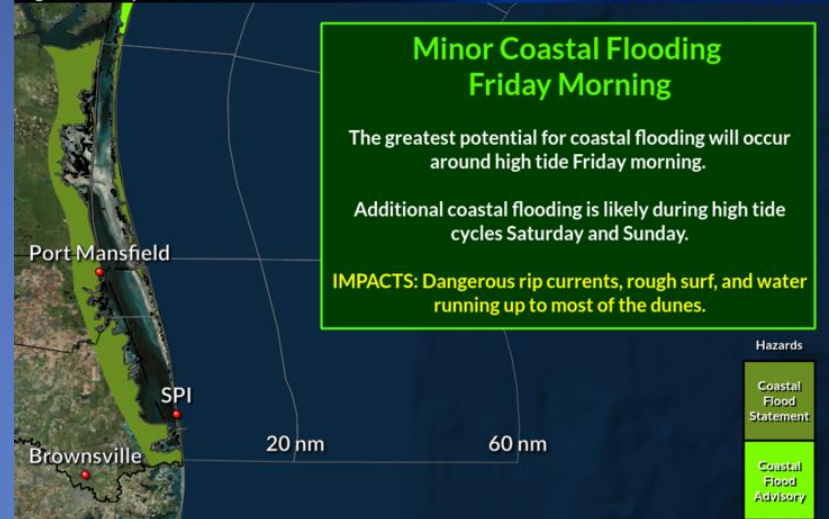

weather.gov/crp

Minor coastal flooding with around one foot inundation is occurring this morning and expected to occur again early Saturday morning for islands along and south of Port Aransas. A Coastal Flood Advisory is in effect through 10 AM Saturday. A MODERATE rip current risk continues today through tonight for all Gulf-facing beaches.

Coastal Flood Statement

High Tide Friday at 5:59 AM

Weather Forecast Office
Brownsville/RGV, TX
Issued Jun 04, 2020 9:12 PM CDT

Minor Coastal Flooding Friday Morning

The greatest potential for coastal flooding will occur around high tide Friday morning.

Additional coastal flooding is likely during high tide cycles Saturday and Sunday.

IMPACTS: Dangerous rip currents, rough surf, and water running up to most of the dunes.

Hazards

Flood
Statement

Coastal
Flood
Advisory

f t y @NWSBrownsville

weather.gov/rgv

Minor coastal flooding is possible near high tide on Friday at 5:59 AM. Dangerous rip currents, rough surf, and tidal run-up to the dunes are all possible. Narrow beaches may become impassable late tonight into late Friday morning.

Hazardous Weather

Today

Patchy morning fog. Widely scattered afternoon T-storms.

Weather Forecast Office
Lake Charles, LA
Issued Jun 05, 2020 5:00 AM CDT

f t NWSLakeCharles

weather.gov/lch

High pressure will remain in place across the area while Tropical Depression Cristobal moves northward over the Yucatan Peninsula. Some patchy morning fog can be expected across the area. This will burn off as temperatures begin to rise. Afternoon heat will produce widely scattered afternoon showers and thunderstorms. Highs will be in the low to mid 90s and mid to upper 80s near the coast. Winds will be from the southeast at 5 to 10 mph.

Tonight

A few evening T-storms otherwise mostly clear. Lows in the low to mid 70s.

Weather Forecast Office
Lake Charles, LA
Issued Jun 05, 2020 5:10 AM CDT

f t NWSLakeCharles

weather.gov/lch

High pressure will remain firmly in place across the area while Tropical Depression Cristobal moves into the southern gulf. A few evening showers and thunderstorms will be possible otherwise skies will be mostly clear. Lows will be in the low to mid 70s with variable winds around 5 mph.

Hazardous Weather

Severe Weather Risk – Today/Tonight

Valid from Today 7:00 AM through SAT 7:00 AM CDT

Weather Forecast Office
Shreveport, LA
Issued June 5, 2020 3:52 AM CT

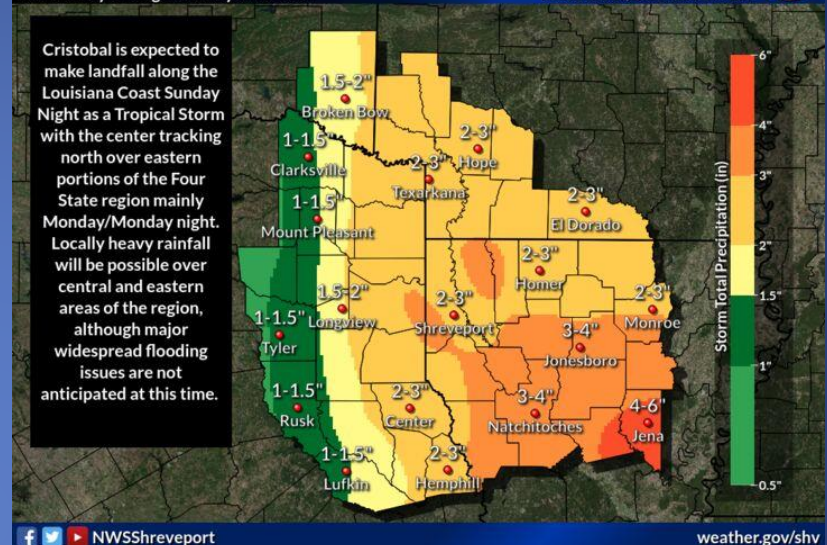

Stop us if you've heard this one before. Severe weather will once again be possible this evening, as a complex is anticipated to work its way southwest. Damaging winds will be the primary threat, with localized flash flooding also possible.

Potential Rainfall Amounts with Cristobal

Late Sunday through Tuesday Afternoon

Weather Forecast Office
Shreveport, LA
Issued Jun 05, 2020 4:58 AM CDT

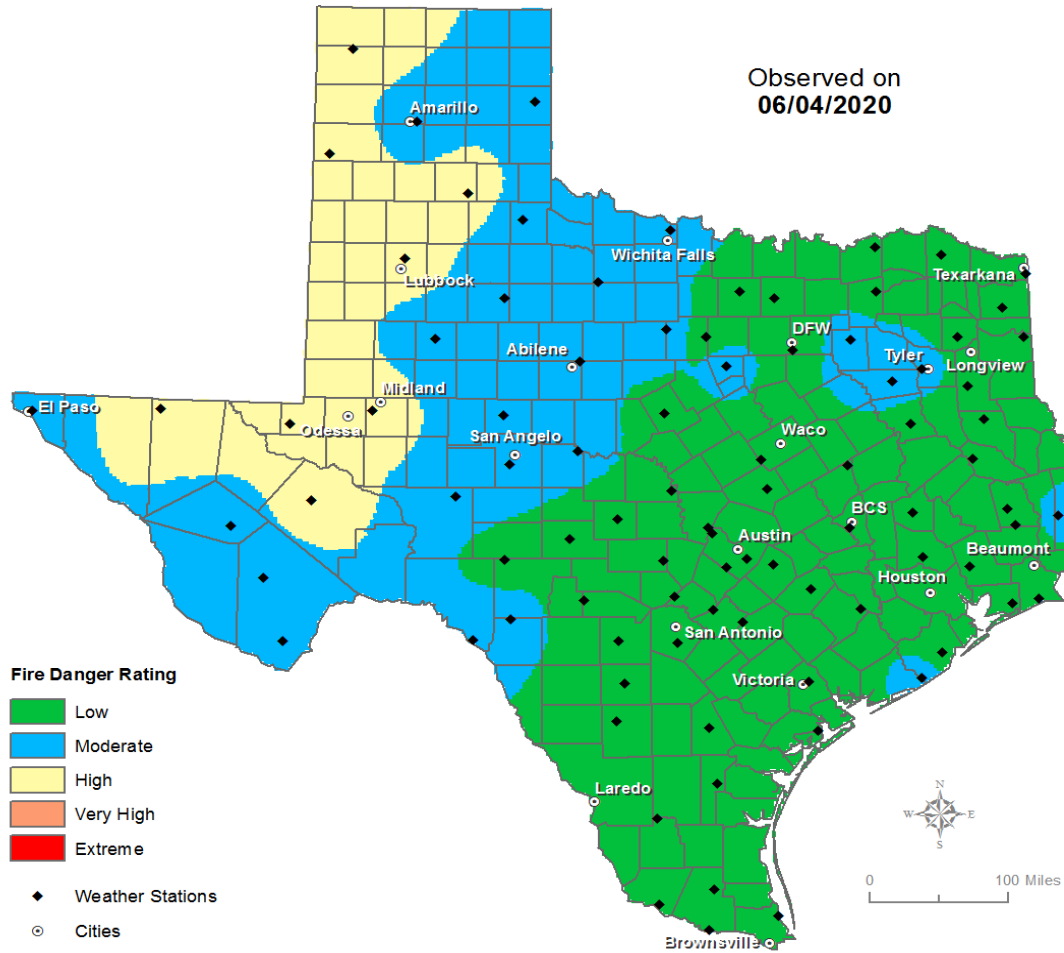

Cristobal is expected to impact our region early next week, especially Monday into Monday night. Locally heavy rainfall will be possible over central and eastern areas of the Four State region, although widespread or major flooding issues are not anticipated at this time.
